## **Perron Pillo™ Sofa**

The Perron Pillo Sofa is an intriguing form that invites a comfortable refuge. Created in partnership with multidisciplinary designer Willo Perron, it's a modular sofa system that challenges preconceptions. "I wanted to create this really simple, big gesture," says Perron, "like a bunch of pillows stacked on top of each other."

**Key Features**

1. **Frame:**  
Metal and foam create the strength and illusion of the bottom pillow
2. **Cushions:**  
Comfortable and supportive top pillows attached with D-rings
3. **Sizes:**  
Available in two depths, Standard is smaller and supports a more upright sit; Deep offers a more lounge-like experience
4. **Components:**  
Three modular shapes can be combined and reconfigured to create a sofa to suit any space
5. **Ganging:**  
Toggle and loop closures at the bottom of the seat, along with anti-slip grips on the feet keep the modules securely together.
