

Bound by Herman Miller Sit-Stand Desking

Bound by Herman Miller Sit-Stand Desking is a high-performance, sustainable desking system of booths that enhances visual and acoustic privacy and is engineered for the highest standard of sound absorption. Increase productivity and create a better experience while people focus – whether that be at an assigned workstation, in a touchdown space in the open office or in a library setting. The desking system includes a recycled aluminium frame and height-adjustable actuators that reduce its carbon, while a carbon-negative hemp crop** used for the infill further minimises its footprint.

**Carbon negative when considering cradle-to-gate scope (embodied carbon) and including biogenic carbon.

Key Features

1. Floor standing or desk-attached screens allow for multiple applications, with a Class A acoustic rating.
2. The panel stands to 1400 mm high, and the worksurface rises to 1250 mm, offering ample visual privacy.
3. Rounded corners and softened edges reduce visual clutter and create a calmer environment.
4. Design with duo or mono colour options to add intrigue and cognitive enhancements.
5. Extended worksurface height range for inclusive and user ergonomics.
6. Clean cable management with lower tray and cable riser.

Benefits

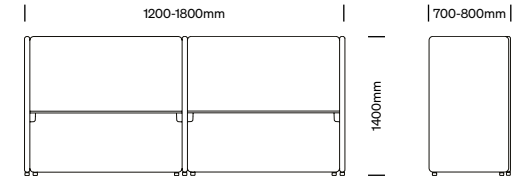

- Bound Sit-Stand desking invites people to settle in with a soft, calming design. Its screens boast a Class A acoustic rating – the highest level of sound absorption available.
- Recycled aluminium frame and height-adjustable actuators reduce its carbon, while a carbon-negative hemp crop** used for the infill further minimises its footprint.
- A high-performance handset provides a reminder for personalised wellness.
- With its ability to reduce audible and visual distractions, Bound Sit-Stand Desking was designed with neurodiversity top of mind.

Warranty

12-years, 3-shift.
